

**PIED PIPERS OF LOVE**  
**By Nicole Christine – January 1987 and 2007**

*I awakened the morning of February 4, 2007, with the realization that the Ruby Flame Venus Temple procession that was about to begin was an enactment of these words from my “Pied Pipers of Love” manuscript completed in January 1987, exactly twenty years earlier. On that day, New Earth Priest Daniel Baxley, joyfully playing his flute, led over thirty New Earth beloveds along the base of this Venus Temple knoll to our creekside ceremonial site. Together, we gave expression to images and words impressed in my heartmind two decades earlier during my last marriage. I thought my husband and I had failed because our marriage ended. But now I know we planted seeds that germinated until the inner marriage of God/Goddess was fulfilled so that the true Pied Pipers of Love could come forth! We are the Ones!*

*First excerpt:*

Whether together  
Or apart  
You two share  
The beat of one heart  
As husband  
And wife  
You have discovered  
New life.  
Your cup runneth over  
You are free  
From all strife  
For it is God's love  
Which fills both of you  
And it is His Grace

That guides all you do  
Rejoice in his blessing  
As woman and man  
Praise all His goodness  
Which is always at hand.

Surrender in oneness  
To God's gentle command  
To love one another  
To have and to hold  
To dance in the sunlight  
Of heavenly gold.  
You have found the treasure  
Of times untold  
You have found the key  
To unlock the old  
The oldest of mysteries  
Sought by only the bold.  
The more that you trust  
The sooner all fears  
Will crumble to dust  
The greater the beauty  
The weaker the lust  
The stronger the devotion  
The surer the thrust  
Insuring shared reunion  
With God as a must.

Together you joined  
To end separation  
To blaze a trail Home  
That is traveled by twos  
That is traveled in peace  
And traveled in love  
That is traveled in light  
Shone from above.  
You are the Pied Pipers of Love  
Harmonizing like doves  
Matching together  
Like a hand in a glove  
You will begin  
To deepen your oneness  
To experience your *God-ness*  
As never before  
You are learning  
To keep open the door  
The door marked attunement  
Through which your souls soar  
Simply because  
It is  
The God in each other  
You have grown to adore

“Pied Pipers of Love. Pied Pipers of Love.” These words became a mantra repeating and repeating in my consciousness. And soon I could my husband and me and our spiritual family processing as Pied Pipers of Love, leading the prodigal sons and the lost daughters back Home to the Father. Two by two, united as one, we were bringing our families and friends with us and there was singing and rejoicing in the Heavens as we were welcomed by the Celestial Host, Creation, and the Creator.

Intuitively, I knew that all who are a part of me-and thus me-my sons, my parents, my brothers, my relatives, my students, my friends and associates would return to our Source with me/as me unless they consciously chose separation. And in turn, all who are a part of those who are apart of me would, if they did not resist the magnetic pull, be drawn into the next dimension. If for a moment, anyone could claim the Light, the Love, they could reclaim their Home. How could anyone choose otherwise? I wondered.

“Listen to the new melody,” I called out to all earthlings. Nature hears the new song and is singing along. The Pied Pipers hear and are humming the tune. Listen. Listen. Listen. Choose. Sing along. Come Home. Come Home, en masse, of children of Planet Earth. Home to where your souls are eternally cradled in Love and Peace.”

*Second excerpt: (By the time I wrote the Epilogue, my husband and I had lost sight of the Divine in each other, but painful as this was, this loss was the sacred wounding needed to pierce that which was shrouding my memory of the Divine Feminine in Sacred Union with the Divine Masculine. That union was sealed the night before the Pied Pipers of Love Procession when Cayelin and Peter guided us in attuning to our Twin Flame.)*

### Epilogue

I did not realize that in choosing to return Home to the Father, we naturally receive the tender loving care of the Blessed Mother. Nor, at the time I began to tell of my awakening, did I understand that what I understood as earth plane graduate studies were, in reality, initiate training in preparation for fulfilling my part, along with many others, in facilitating the quickening transition out of the darkness of ages past into the Light of the New Age. The Aquarian Age in which the re-emergence of the feminine aspect is an essential dimension. An Age, which is a probability, not a certainty. An Age, which we must choose and co-create with one another and our Divine Father/Mother.

And as I am preparing, I am becoming conscious of many ways in which Pied Pipers, on this planet of choice, get mesmerized by matter and thrown off course by negativity and mistakenness, which reinforces the importance of everyone awakening to and cooperating with the powerful higher forces available to our species at this crucial time of transformation. The time when our species must choose and align with the Higher Plan. The time for the group mind shift to higher consciousness. The time when we must ask ourselves if we are choosing the path of the old, the destructive, the darkness...or the path of the new, the creative, the light.

*Go within...within...within.* Doesn't the truth of these words resonate at your inner core, your inner essence? Can't you feel that my heart's desire for us all to advance as one is

truly your own heart's desire? Can't you feel God/Goddess' love for you flowing through you? Flowing through me? Flowing through the Planet, through the cosmos?

Feel your heart beat with mine...with the pulsation of the Universe...of Creation. Feel the expanding and contracting. The exhaling and inhaling. The forgetting and remembering. The exploring and reporting. The going out and coming in. Attune to this moment of remembering and coming in to reconnect with Our Source in expanded conscious activity as One. Feel the Oneness. The Oneness. The Oneness.

*Postscript (February 2007):*

And we went within, guided by [Cayelin and Peter](#), who shared the Twin Flame message brought to them by Chere Rose: Now, it is time to reunite the Bride and the Bridegroom and forge balance between these polar opposites. This is KEY to activating the next quantum level; the new beginning and the twins' reunion. The chart for this beloved moment shall reign in the New World. A HO!

The Way of the Return is described first through the spiritual development of the individual, as far as possible in the divided state: Then, the Union of the Soul with its Twin: Then, a reuniting with the Group Souls from which it separated long before. The joy of the Twin Reunion is great, but it pales before the rapture that will attend the reassembling of the Group Souls, each composed of united Twins (some who are embodied together...others consciously connected to their Twin in other dimensions.

The Twins will find their way back to one another in the time of the Ascent, locating their own Group, returning in the order of their coming. Because each carries the image of the other in the depth of his/her being, each has put their seal on the other.
