

## NEW EARTH

## SACRED ORDER OF VENUS TEMPLARS

*Through the power of divine guidance and inner authority,  
New Earth Venus Templars are in service to Divine Creation in accordance with  
The Divine Design for their individual and shared lives.*

**COSMIC ACTIVATIONS**

The Venus Temples cosmic activation dramas playing out as 2007 ends and 2008 begins are in accord with numerology which identifies the year ending as a “nine year,” a year of completion ( $2+7=9$ ) and the new year as a “one year,” a year of new beginnings ( $2=8=10=1$ ).

**December 27-January 6**

The window that opens on December 27, 2007 for the reactivation of the Blue Flame Temple of the New Covenant in the Canary Islands heralds the completion of Old Earth consciousness that functioned at diminished levels of awareness.

Thoth indicates that “when all the Venus Temples become active, the Venusian portal will be opened once again—the same portal that allowed the Lord Melchizedek to come to earth eons ago. Then with the ‘memory’ of the unfolding of the Lotus once again unsealed for those ready to receive it, the New Earth Lotus unfoldment through the creation of the New Earth Hologram can truly begin.”

On January 6, 2008, when the Canary Island Temple reactivation process culminates and all seven Venus Temple nodes are again active, we will be in a *dark of the moon* phase when, in ancient times, priests and priestesses performed the *highest* ceremonies.

The activation window ceremony that is coming forward for Teresa and Bruce is to keep a candle lit from 12/27/07 through 1/8/ 2008 (13 days), asking Spirit to “light the way” through the mysteries as they unfold and to extend support to Shanti, Carol Rose and Debrah, who are called to journey to the Canary Island’s for the Temple activation. They plan to use two seven-day candles—first

lighting a Magdalene candle and leaving it lit until it self-extinguishes; then a Yeshua candle leaving it lit until it self-extinguishes.

The intention is that the candle lights the energetic pathway for those traveling, as well as allowing Spirit’s perfect timing with the length of time the candle burns, approximately 13 days. (13 days—the number of regeneration and change; Friday, October 13<sup>th</sup> the historic day of the Templar mass execution). The simple act of lighting a candle commemorates the simultaneous beginning of the new energies of the Christ Consciousness of the ascended masters Magdalene and Yeshua and the ending of the old energies as the flame self-extinguishes.

I’m going to follow their lead and do the same, using a red candle for Magdalene and a gold (or yellow) for Yeshua, noting that red and gold are our Venus Templar colors. This ritual enactment of the ending of the old and beginning of the new beautifully corresponds with Shanti’s Canary Island Divine Creation High Priestess Emergence Ceremony that will take place on January 6<sup>th</sup>.

The Divine Creation High Priest/ess process was inspired by the *Council* message that Aine Armour-Barrett received earlier in 2007: *Magdalene and Yeshua hold within them the Archetype of Divine Creation, the Blueprint. The Egg is the symbol of that creation. The Egg is a seedpod, full of countless future creations. Through the act of Divine creation Universes are born.*

([www.celticfireandfaerie.com](http://www.celticfireandfaerie.com))

When Shanti, with Carol Rose and Debrah as witnesses, crosses the Divine Creation threshold, this priestess triad will enact the fulfillment of our soul group’s role in this Venus Temple Act in Cosmic Drama

The temple node activation drama will take place with or without human players. However, as Shamanic Astrology points out “the *As Above, So Below* mysteries remind us that we inform the mysteries as much as they inform us and our part is to be active, conscious participants so that we are responsibly doing our part to inform the mysteries.”

In a 1/6/07 transmission to Maia, Thoth stated that “activation of natural earth grids and sacred sites comes about through a confluence of cosmic and mass human stages of expanding awareness. **No individual or group of individuals activates a natural earth grid or sacred site.** However, they can witness it through ceremony, ritual or merely with deep inner intention; and, when they do so, they activate themselves and feed this activation into the mass consciousness.

“This can create an evolutionary path to the expansion of human awareness, which in turn adds to that expansion. The expanding human awareness meets with the cosmic events in a dance of harmonics. It is this “dance” that activates natural earth grids and sacred sites.”

His transmission goes on to elaborate on the Venus Temple sites in ways significant to our “dance” with these energies. “There is the natural planetary ‘Venus node,’ which can also be defined as a ‘temple’ and then there is the collection of intentional consciousness that continues to gather at these nodes through time. The Venus nodes are being activated and /or are opening further levels of their activity through the interplay of cosmic events and mass consciousness expansion. And there are also group souls who have created their own *amorpha* (Thoth’s word for group belief / focus / activity made into a working system) at these nodes.”

In November, during Shanti’s DCHP Death and Rebirth ceremony, we set another temple activation candle lighting ceremony in process. Soon after receiving Thoth’s reading for Marlys in which he identified Marlys and I as ancient “Flame Keepers” in the Alexandria Isis-Venus Temple, I purchased a wrought-iron candelabra with seven glass votive candleholders and bought votive candles in the temple colors. At the beginning of Shanti’s Death and Rebirth ceremony, we lit the candles representing the six active temples, which were half-burned by the end of the ceremony.

The morning of January 6, Tucson Venus Templars will gather at Our Lady of Guadalupe Chapel (where the Priest/ess Process was inspired), to light all seven candles and ceremonially participate in the completion of the Canary Island Temple activation, occurring seven hours ahead of us in MST.

I will let all seven candles burn down and replace them for the March Gathering when Marlys will light them in the March 6 *dark of the moon* opening ceremony.

Those interested in paralleling this ritual act might want to see if these candelabra are still available at Bed, Bath & Beyond. This store was also the only place I found that had votive candle colors closely approximating all of the temple colors. (Turkey-golden; Alexandria-white; France-black; Spain-violet; Canary Islands-blue; Arizona-ruby; Kauai-emerald.)

Additionally, it is important to hold sacred space for Shanti, Debrah, and Carol Rose throughout their Canary Island stay January 4-10. Thoth’s guidance to Shanti as a physically present participant in this node’s activation is to “Hold the Moon in the Cup of Light—offering it as an elixir to the uniting of all seven Venus Temple nodes as the final one of the seven is re-activated. BE with this thought, this feeling. Go to the inner sense of it. Do not try to think how it will be. Go deeper, into the soul-sense, the KNOWING.”

In reading Maia’s commentary on Shanti’s role, I had an instant sense of a Priest/Priestess Sacred Union Triad etherically assisting this *on the ground* Priestess Triad...

Maia wrote, “Remember, the Atlantean Temple node embodies the BLUE FLAME, the Lemurian Temple the EMERALD FLAME and the Alhambra Temple the VIOLET FLAME. You will be personally carrying the Violet Flame of Transcendence, which at Alhambra is the ‘HEART OF THE DOVE - VIOLET FLAME OF DIVINE ACCORD, HARMONIZING the RHYTHMS through the HOLY TONE’ into the Blue Flame Temple of Atlantis—linking with the newly restored Lemurian Emerald Flame —to HEAL through LOVE the Lemurian-Atlantean rift (separation in conscious-ness) of eons ago.

“This means your personal incarnation and karmic path is allowing you to be the vehicle for this healing frequency on this journey. Of course, you are not accomplishing this on your own. Each member of the group reflects a portion of this, but it is your specific ‘allotment’ in ‘holding the Moon in the Cup of Light.’ Thoth is indicating here, that this act is your Mystery Play within the whole. Therefore, YOU must come to feel and understand it through your own inner initiation in calling upon the violet flame.”

Given that Alarya and Jay were in Kauai for the February activation, Bruce and Teresa were there in October, Dan and Karrie went to Alhambra and the Canary Islands in April, and that all of them are deeply committed to Sacred Union, I sensed that they, as couples, have created an

## December 2007 – Issue 3

etheric triad of balance of the sacred feminine and sacred masculine essential; not only for healing through LOVE the Lemurian-Atlantean rift and the energetic bridging of the seven temple grid system, but for the 1/7/08 Cruxus Venus Pillar of Light Activation.

Additionally, Alarya pointed out that when Jay and she go to Alexandria in April, each of the temple regions will have been visited by at least one of these couples. In addition to the three temples named above, all three couples participated in the February 2007 Gathering at the Arizona Ruby Fire Temple. Bruce and Teresa were in France in September and Alarya and Jay were in Turkey in November. They did not make it to the temple pentagram regions, but were along the respective gridlines. The Cosmic Choreographer is definitely doing some fine arrangements and the Venus Temples dancers are high stepping!

My take is that these couples formed a *triumvirate* committed to the *triumphant* fulfillment of this next phase of planetary transformation.

Other alignment plans that I understand to be in the works include a Heartland Venus Templar Labyrinth ceremony at Toby's. Tracy reports that she regularly works with a small, power-filled group of Atlanta High Priests and High Priestesses, one being Magdalene D'ann Baldwin who expressed that she wants their group to "do something really BIG to connect with the Activation of the Canary Islands Temple." D'Ann made the France 2006 journey and has a strong connection to that temple and the Venus Temples energies as a whole.

Specific to Shanti's DCHP emergence, a Thoth akashic record reading indicated that she did not have a prior incarnation in which she had directly interacted with the Canary Island Atlantean Temple node. This interaction will complete an incarnational cycle for her, bringing her to the place where she may *empty the cup* and move to the next stage in her spiritual journey. Thoth pointed out that there is often more power for the incarnated soul in coming to a place one has not experienced before than returning to a place one *has* been in the past."

However, Carol Rose's reading revealed a past life that provides us with an understanding of the role priestesses and of men in earlier Venus Temples times and of what it means to serve the sacred. Thoth said, "You lived as a young man named Gathu in the Guimar temple complex region of Tenerife - then called 'Potuasula.' You died at the age of 25 - a relatively short life - but a productive one. You were devoted to the Goddess in the form of 'AchuWa,' a version of the Atlantean 'E'sis,' later the Egyptian Isis. The Venus Temple of Potusula was within

## News Update by Nicole Christine

the 'Sanctuary of AchuWa' - its own section of the larger Potusula complex.

"As Gathu, you escorted the AchuWa priestesses to and from the Venus Temple and assisted them with their ceremonial preparations. You, as a male, were not allowed entrance into the Venus Temple or other key temples / chambers of the Sanctuary. The Sanctuary had not 'priests,' but instead, males serving the Goddess, such as you, that were called 'aku' or 'Escorts of the Sun.' The AchuWa priestesses were seen as embodiments of Venus. The moon was a serving-symbol (a reflection of the greater stellar beings) only - and the moons of Venus as well as Earth were seen in this capacity as well. Thus, the Sun 'escorted' Venus and Earth and the other planets to their life-giving Moment in time.

"Gathu longed to be able to enter the Venus Temple and other off-limits areas of the Sanctuary. He was very much all-male and had a sweetheart, for whom he offered a chaste love; but she was a priest-ess of AchuWa - and while aku were allowed to engage in sexual intercourse (other than with the "Consorts of Venus") and marry, AchuWa priestesses were not.

"A note on the Consorts of Venus: These were what you might call a special league of priests - not of the AchuWa Sanctuary, but of the mountain Enclave of Pala. They, too, served 'Venus' - in the ancient tradition of the first Venusian Consort, Lord Melchezedek of Venus. The Pala Consorts were all descendants of Lord Melchezedek and the priestesses of his Temple in Mu (Lemuria).

"Gathu's death came about as he was climbing [...] the light-filled sacred mountain, Atu Pala, meaning 'the shining sentinel.' This mountain is today known as 'Montana Bermeja.' During the journey, Gathu fell from the trail and passed from the body instantly. In that life, Gathu never completely reconciled the lesson of serving what is given to serve."

Thoth indicated that this journey will provide Carol Rose with the opportunity to re-connect with the lessons learned in that lifetime, and that are still "in progress" in this one, around spiritual service and how it may not always align to what one desires in that lifetime. The importance of surrendering to SPIRIT in all ways is so that "outer form" becomes of less importance and "inner awareness" is recognized as the Eternal Flame where one truly resides.

Debrah's reading is forthcoming....

### January 7 Cruxus Venus Activation

*(See Definitions for words in orange on page 8.)*

Still in the *dark of the moon* window, we have the opportunity to play parts in the next Act of the Venus Temples mystery drama. A significant update on the **Cruxus Venus** Call to participate from Thoth is that “**Once the Venus Cruxus Pillar of Light forms (when the Atlantean Temple-node is re-activated) the WHOLE Venus Cruxus connects directly into the ‘ultimate’ (relatively speaking) Venus Temple in Numis'OM! With the re-activation of the Atlantean node, all is complete for the next stage in the re-initializing of the Earth’s entire grid system via the various dynamics now in motion upon and within this planet.**”

The heart of Thoth’s request is that on 1/07/08 we, along with Maia and Simeon’s Spirit Mythos Network and the Children of the Sun Network participate in a process of Light-Streaming insertion into the Isis Eye-Aeriopax Ascension dynamic as it is triggered by the unification of activity of all seven Venus Temple. See Isis Eye-Aeriopax image and expanded explanation at [http://www.spiritmythos.org/earth/aeriopax\\_ascension.htm](http://www.spiritmythos.org/earth/aeriopax_ascension.htm).

The Children of the Sun Network is based in Sedona, which is in the Ruby Flame Venus Temple region! Before leaving for the Canary Islands, Shanti will meet with CSN founder Tiara Kumara to establish a direct energetic connection.

Note: Though the *Call* was directed specifically to the above three groups, participation is greatly welcomed by anyone who aligns with the intent.

### The Process:

On **January 7th, 2008**, simply choose a time of day to be in “sacred space” and visualize the ISIS EYE-Aeriopax geometry You are WITHIN it - your heart at its center, and as Thoth has stated:

*“...form a spinning wheel of Emerald Light around you. From this wheel, see the Aeriopax arise, each of the 16 points fiery Yods form the ‘Book of Life’ and the 6 fields within the boundaries of the points are quickened as windows of crystal containing the libraries of all Earth dimension. Then set this Living **Merkabah** of the Aeriopax upon the land...”*

Next, FOCUS YOUR HEART LIGHT FROM THE “EMERALD FLASH-POINT” at the center of the Isis Eye and, thus your heart, as a two-fold direct beam into the CRUXUS VENUS PILLAR OF LIGHT (Venus Temple Matrix) which finds its Earth Anchor (as a whole) at two locations on the planet:

(Suggestion: have these photos, provided by Maia, with you during the process to aid your visualization.)

- 1) Ascending Anchor: the sacred “Weasak” **Mountain - Kailash**, in the Himalayas  
[http://www.sacredsites.com/asia/tibet/mt\\_kailash.html](http://www.sacredsites.com/asia/tibet/mt_kailash.html)

- 2) Descending Anchor: Mount Haleakala - “House of the Sun” on Maui, Hawai’I  
<http://en.wikipedia.org/wiki/Haleakala>

The group forms the spinning wheel of Emerald around them as indicated in italics above. Following intuitive guidance, allow the current to move through you individually and as a group to "set the Living Merkabah of the Aeriopax upon (and into) the land."

Note: You can also use the Aeriopax as an individual, for personal healing and balance on all levels.

In Tucson, plans are shaping up for us to perform the Cruxus Venus process at the base of Mt. Baboquivari, a mountain sacred to the O'Odham people of this region and that greatly resembles Mt. Kalish. When I sent Maia photos Lucinda took of Baboquivari, Maia learned from Thoth that there is a link between these mountains and that they BOTH POINT to constellations above – RECEIVING stellar codes for the planet as the earth turns underneath these constellations.

On January 7, Lucinda and Owen will meet at sacred Mt. Rainer in Washington to perform the process and Bruce and Teresa plan to invite Heartland KC Venus Templars to gather in their home at 8pm for the activation. Please let me know of other plans so I can inform Maia.

SEND THIS EMERALD FIRE-LIGHT THROUGHOUT THE ENTIRE MATRIX OF THE SEVEN TEMPLE NODES AND THEN "ANCHOR" IT AT THE ASCENDING AND DESCENDING "HITCHING POSTS," **KAILASH & HALEAKALA**. These come together as ONE PILLAR OF LIGHT! The whole CRUXUS VENUS procedure should take from 5 to 15 minutes, depending on your own inner guidance. LET THE PROCESS FLOW FROM THE HEART. Once you read the process – perhaps several times – don't try to remember all the details as you actually engage the procedure. Just "know" that they are being inserted as you go along.

In the current issue of the *Numis'Om* Newsletter, Thoth indicates that if any person works with the Aeriopax process at a sacred site conducive to its frequency, it will have a positive effect. If they is a **group of five or more**—even if the others present are not aware of the Aeriopax or its process, but are there for spiritual connection, there will be an even **stronger activation of this channel, than one person alone**. Yet **"16" or more people is the magic quotient**. To maximize potential all participants should be aware of the process and employing the geometric symbol is some way.

The process is also enhanced if the image of the Aeriopax is employed, perhaps as a print on canvas that could be placed on the floor with the group around it and by wearing a printout of the image on your shirt or blouse.

The Canary Island priestess triad will contact me from there to let me know their plans. They might even be able to engage others in the process because a member of the Isis-Eye Aeriopax Network from Spain may be going to Tenerife for the activation and Shanti has Earth Works for Humanity Group contacts there. She befriended the twelve Canary Islanders who participated in the October Sedona Earth Dance ceremonies. In turn, they are eager to welcome the triad there and to join in ceremony.

*More high stepping footwork between Shanti & Thoth...*

**Shanti:** I have been involved with Earth Works for Humanity and the Earth Dance since its inception. What is my role with connecting them with the work of the temples?

**Thoth:** Your personal role is one of transmuting the Old Tribal consciousness into the New Stellar consciousness. You have offered your own vehicle as a transformer for this energy, and thus for the planet. Earth Works for Humanity is an arena for this type of transformation on a world scale.

*For fun, let's mix it up a bit with this portion of Thoth's Cruxus Venus Call communication...*

"When all seven Venus nodes are then active and assembled as the Cruxus Venus Pillar of Light, the **"Isis Eye" Aeriopax geometric**, in its new energetic format, will open floodgates of ancestral memory in the DNA to a

## December 2007 – Issue 3

greater level of awareness and tribal consciousness will begin to shift from ‘Old Tribal’ to ‘Stellar Universal’ modality. This will have a great effect on the ‘tribal wars’ and opposition between cultures and races on the planet. At first, it will seem as if this age-old pattern is escalating, as the ‘hive is stirred by the hand that reaches for the honey.’ Once the honey is brought out, it shall be as manna to the world.”

Whether as an individual or in a small or large group, whatever way(s) you might choose to enact these cosmic plays is sure to be a blessing to our soul group, the planet, and to you personally.

### An Additional Option:

As part of the Cruxus Venus process, you may wish to include the radionics Light-Mathematic number as given by Thoth for this procedure: **77700777004444**. Thoth refers to this numeric as “the first level integration with the Isis Eye dynamic.”

You can write the number down and place it under a crystal to amplify it –setting an intention at that time to “activate” it. However, in most instances, this numeric is 50 to 100 times amplified and balanced if it is placed within the intention setting of the **THOTH MASTER GUARDIAN v1.0** radionics software.

I have it in my Thoth software so it is infusing the Isis-Eye dynamic into this newsletter. And the Tucson Venus Templars have placed the numeric **77700777004444** under crystals on our altars. You don’t have to wait until Jan. 7!

### Akashic Definitions

**Aeriopax:** this harmonic is a grid of time reality exchange. Once activated, the grid allows the passage between multi-lateral time fields without distortion.

**Cruxus Venus:** the "Cruxus Venus Pillar of Light is a pathway (or the sometimes over-used word "stargate" – but here "galactic-gate" might be more appropriate) into the Venus-Quetzal Cross. See <http://www.spiritmythos.org/TM/medkeys/quetzalcross.htm>.

**Merkabah:** spirit-generated field of Light transport for sentient forms and consciousness through space and time.

**New Earth Star:** future ascended state of the earth (Nicole: my understanding is that Earth is moving from being a planet to becoming a star. *From (star)dust we come. To (star)dust we return.*)

**New Earth Hologram:** holographic enfoldment of the current earth into the Light field that will transform the earth into New Earth Star consciousness. **Numis'OM:** the connective etheric membrane that is evolving from our world to integrate and become the New Earth Star.

### Activational Images

To enhance my engagement of these energies, I ordered four of Maia’s copyrighted images as downloadable 8”x6”

prints through the Spirit Mythos website store for \$11.11 each.

I selected the Isis-Eye Aeriopax, Cruxus Venus, 44:44 Star Gate, and Golden Star Mazurial images, printed and laminated them. Wow, does the lamination bring out the color vibrancies! In the above order, I taped a strand of burlap twine to the backs and have them hanging on the wall above my computer as a streamer and will use them in the 1/07 ceremony.

I have the Golden Star at the top because, according to this system, “Mazurial is the ‘Golden Star’ of the our true home - no matter what our Creation Star.”

### January 8 New Moon Transmission

We are not done yet! The New Moon is the seed point for new creations sourced and ritualized during dark of the moon cycles. In yet another synchronicity, one of the ways the Children of the Sun Network is working for world unification is by calling for participation in New and Full Moon Unity Grid Transmissions beginning at the January 8 New Moon.

CSN will be participating in the January 7 activation and the New Moon plans they already had in place, provide a timely means for us to seed the New Earth Star future creations that we have been conceiving for lifetimes.

CSN information is that crystalline Unity Grid transmissions will “take place every new and full moon throughout 2008. These transmissions shower amplified infusions of Light to assist in our per-sonal, divinely aligned, transformation.”

## December 2007 – Issue 3

The transmissions will occur over a full **24 hour period** on each new and full moon. **The Unified Meditation will take place at 9pm EST.** The CSN website states, “At that time, you may choose to go into meditation, connect to the grid and simply receive. If you have built a network or desire to assist with planetary focus, you can then serve as a crystalline human portal in both receiving and transmitting.”

Emphasis is on “consciously focusing on building your luminous Light body, our ascension vehicle that transports us into the higher dimensional system of New Earth energy. The more this crystalline body is developed and activated, the more easily you can connect into the planetary grid and cosmic hologram of Love.”

For more transmission information, see <http://www.childrenofthesun.tv/updates.html>

### **Opening The Way – Venus Temples Gemstone Essences**

In a group process to rate essential oils, Shanti discovered that according to the 1-1000 “Truth” frequency scale published by Dr. David Hawkins in *Power vs Force*, the Venus Temples Gemstone Essences created by Lucinda calibrate between 900-1000. This is in the Christ and Buddha Consciousness range!

Recently, in addition to producing the missing France Midnight Sun Temple essence, she attuned to an *Opening the Way* Essence. The emergence of this essence is perfectly timed to help us prepare for the nearing activations and, *coincidentally*, is made from an aquamarine gemstone—the stone in the center of the Isis Eye is aquamarine!

For information on ordering any or all of the essences contact Lucinda at [lucid.designs@yahoo.com](mailto:lucid.designs@yahoo.com).

### **Celestial Timings – December 27, 2007 to January 7, 2008 by Cayelin K Castell**

Preparation for the work ahead would not be complete without Cayelin’s Shamanic Astrology input. She reports that we have a rare alignment of four major cycles all happening around Galactic Center: 1) The alignment of the Sun at the December Solstice near Galactic Center, an event that can only occur every 26,000 years; 2) the 248 year passage of Pluto; 3) the 19-year Lunar Standstill; and 4) the 12-year passage of Jupiter. These are rare cycles aligning to activate galactic codes ready to assist in the planetary ascension.

She indicates that this is the Largest Context even beyond the 26,000 year Turning of the Ages and that we are going through the End of Time, as we know it, and entering the Beginning of a New Time in

ways that we haven’t yet imagined. It seems that the influx of galactic light codes pouring into our solar system and onto the Earth at this time are designed to calibrate and harmonize our entire space-time-grid in an unprece-dented evolutionary quantum leap.

And she provides us with an important reminder. “Trust and surrender are key to being in the magical flow of what is changing. Many may resist these changes, but the evolutionary process is under-way and resistance to it would be like the caterpillar attempting to resist the inevitable transformation into the butterfly.”

### **MARCH 2008 GATHERING**

The potency of the March 6-9 gathering is accelerating with the recent the out-pouring of information about the New Year activations. I now see greater significance in starting at the dark of the moon and moving into the third new moon seed point of the New Year on March 7. And I more fully understand why we are called by the Sinaqua Ancestors to their sacred grounds in the SE leg of the Ruby Fire Temple pentagram and by Thoth to enact the Earth/Venus passage through the 44:44 Star Gate.

This aligns with Thoth’s words that “When all seven Venus nodes are active and assembled as the Cruxus Venus Pillar of Light floodgates of ancestral memory in the DNA will open to a greater level of awareness and tribal consciousness will begin to shift from ‘Old Tribal’ to ‘Stellar Universal’ modality.”

**Balance payments are due by January 15, 2008** and there is still room for a few more participants who feel our ancient future calling us to participate in our collective rise to Stellar Universal consciousness.

In advance, I thank everyone who helps prepare the way by participating in the New Year activations.

In the Heartland North, the Twin Cities Venus Templar event has been changed to July 18-20, 2008 and Patricia, who's coordinating on that end, and I are excited about the enthusiastic response of those wanting to engage the Venus Temples energies and, potentially, initiate into the Sacred Order of Venus Templars.

In Heartland Central (Kansas City area), Lidia's readying for her next *Lead Yourself: Real Results from the Real You* Seminar on January 24-27. Reports are that it's a stellar experience. Join her if you can and help spread the word. <http://www.yourbestpotential.com/>

Joana, who has been hostessing monthly Venus Templar meeting in her home, reported that those present in November talked at length of the Venus Templars course in KC and felt warmly secure in the incubator which, at this moment, feels ever so good. All felt unusually pulled to be a part of this movement and are still cooking on individual roles and on roles for the KC area.

Toby has returned from a family trip to Italy and I hear she thinks the Tuscan region is even more beautiful than southern France, so, as Pamela says, it must be really fabulous!

Going West, Aliza, who crossed the Mississippi River divide between the Heartland and the West when she moved to Texas, will be leading a Magdalene Journey to Tuscany in April. Take Toby's recommendation and join her if you can and let others know of the journey. Additionally, Aliza is starting the first Priestess Process Circle in Austin in February and would welcome contacts anyone has there. ([revaliza@sbcglobal.net](mailto:revaliza@sbcglobal.net))

Nancy has relocated in Sedona, feeling that the important work she was called to do by living in France is complete and that it's time to take her work to its next level in Arizona. Welcome back!

### VENUS TEMPLAR DIRECTORY

Early in 2008, with the help of Tracy who is will be "the keeper of the records," I want to create a Venus Templar Directory containing mini-bios of all who wish to list their sacred work.

This can be shared among ourselves and beyond. My redesigned website will be up soon and will contain a Venus Templar page, which will include a Venus Templar Services Directory of those who would like to receive referrals.

Look for a directory form from me (after the January activations!).
